

INDUSTRIAL FLOORING

brought to you by: A-WALL Building Systems in partnership with ArmorPoxy

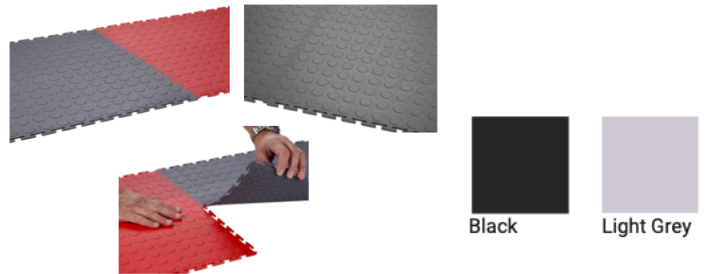

KEY BENEFITS:

- Quick and easy to install with minimal disruption
- Can be installed over old, uneven, or contaminated sub-floors
- Easy to remove and re-lay
- Exceptional durability
- Excellent resistance to impact, moisture and abrasion
- Oil and chemical resistant
- Mold and mildew resistant
- Highly water resistant
- Superior sound absorption
- Warm and comfortable underfoot
- Integrated ramp edging for most styles
- Protective topcoats available

These heavy-duty, PVC tiles are affordable and easy to install! They have unique interlocking molded teeth that lock them tightly into place. No adhesive is required, and no special tools are needed. All you need is a rubber mallet and a small electric saw for trimming.

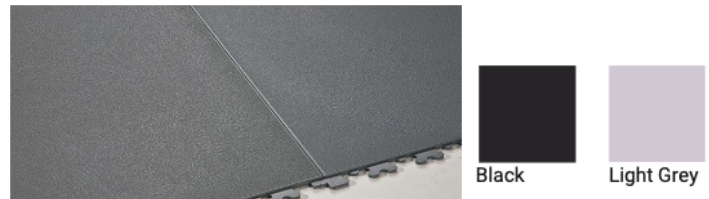

4.5mm T-Joint; Coin

The most economical solution for many in-plant applications. Available in interlocking 'T- Joint' and surface texture 'Coin'. Can be laid quickly and with minimal disruption over any hard surface. Perfect for offices, break rooms, conference rooms, reception areas, lobbies, and thousands of other uses. Approved for light vehicular traffic.

5.5mm Hidden Dovetail; Leather

A slightly thicker tile that offers a stylish leather, smoother surface texture with a patented Hidden Dovetail Joint giving a clean, finished look. This interlocking joint is virtually waterproof. Like the 4.5mm, the 5.5mm series is designed for indoor use applications such as offices, break rooms, conference rooms, reception areas, lobbies, and lounge areas.

6.5mm T-Joint; Urban Tile (Concrete style)

A multi-layered interlocking loose-lay vinyl tile with polyurethane treatment, making it the easiest to clean. It's 100% recycled PVC, with a 6.5mm thickness for resistance to heavy traffic. The commercial classification is 34 and industrial 43. The Urban Tile is suitable for wheeled traffic up to 2,600 lbs. per tile and can be quickly installed over poor subfloors.
